THE STORY

As a veterinarian, I have spent my career inventing game-changing solutions to meet the unique needs of cats. As a mother of two, I am passionate about leaving a healthy planet for the future. So, I set out to create a plant-based cat litter made from one, renewably sourced, environmentally friendly ingredient with no added chemicals or scent. It had to be super absorbent and form easy-to-clean clumps with great odor control. It also had to be affordable and super lightweight to make paying for and unloading a little easier. And most importantly, it had to be soft on paws and my cat's first choice. Dr. Bales One Source™ is that litter! It is made from only one ingredient - the cooked bark and fiber of the Yuca plant. Finally, you can take great care of your cat, your wallet, and our planet.

Dr. Liz Bales

- ✓ ALL NATURAL
- ✓ NO CHEMICALS
- ✓ NO FRAGRANCES
- ✓ SOFT ON PAWS
- ✓ SUPER ABSORBENT
- ✓ BETTER ODOR CONTROL
- ✓ USE LESS - SAVE MORE

THE LITTER

Dr. Bales One Source™ is made from ONE single ingredient - Yuca Root. Commonly known in the U.S. as Cassava, Yuca is a highly drought-resistant crop and a mainstay in the diets of millions of people living in tropical and sub-tropical regions around the globe. Dr. Bales One Source™ is made from the cooked bark and by-product of the Yuca Root after processing for human grade foods. This safe, cooked, renewable and sustainable plant is high in starch and fiber content making it a great natural source for cat litter for its high absorbency and powerful clumping characteristics.

**PERFECT FOR
USE IN
AUTOMATIC
LITTER BOXES!**

Made with a Single Renewable Ingredient, Yuca Bark
All natural formula free from chemical agents, perfumes, bleaches and dyes.

Better Odor Control
Odor is controlled by our patent pending Yucan Process that provides great absorption capacity and helps avoid unpleasant smells.

Super Absorbent
Natural Yuca cat litter quickly absorbs 7 times its weight in moisture so it uses less clean litter to form clumps.

Tight, Fast Clumping
Natural Yuca starch is the active ingredient that quickly absorbs moisture to form tight clumps for easier scooping and reduced litter waste so you use less.

99.9% Dust Free
Less dust for a cleaner, fresher home for you and your cat.

Less Tracking
Natural Yuca litter is soft on paws and leaves less tracking than other clumping litters. Better for your home environment and your cat.

Lightweight
Natural Yuca litter is ultra light and low density so it's easier on your back and your delivery driver's back.

Flushable
Dr. Bales One Source litter clumps are flushable and will disintegrate when flushed. Flush only 1 to 2 clumps at a time. CAUTION: California law prohibits the flushing of any kind of cat litter.

One 4.4 lb Bag Lasts Up to 30 Days!

= 30 Days = 15 Days

MULTI-CAT FORMULAS

8.8 LB BAG **17.6 LB BAG**
